

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

RUSHCLIFFE WAPENTAKE: PART II.

London:

ISSUED TO THE SUBSCRIBERS BY PHILLIMORE & Co.,

124, CHANCERY LANE.

1905.

P R E F A C E .

THE present is the seventh volume of Nottinghamshire Parish Registers, and includes some further marriage registers in Rushcliffe Wapentake. Thanks are due to the parish clergy who have permitted their registers to be printed. The registers in the present volume have been transcribed by Mr. T. M. Blagg, Rev. J. Clough, Rev. P. H. Douglas, Rev. C. A. Hodgson, Rev. H. P. Ling, Rev. A. H. Millard, Mr. W. P. W. Phillimore, Major Robertson, and Mr. F. A. Wadsworth.

The entries, as before, have been reduced to a common form, and the following abbreviations adopted :—

w.—widower <i>or</i> widow.	p.—of the parish of.
s.—spinster, single woman, <i>or</i> son.	co.—in the county of.
b.—bachelor <i>or</i> single man.	dioc.—in the diocese of.
d.—daughter of.	lic.—marriage licence.
	f.w.k.—frame-work-knitter.

The spelling of the surnames is in all cases the same as in the original registers, but the Christian names have in most cases been translated or modernised.

It must be remembered that these printed abstracts of marriage registers are not “evidence” in the technical sense. Certified copies must still be obtained when evidence of a marriage is needed for proving a pedigree in a court of law, or when registering it at Heralds’ College. For such certificates application must be made to the clergy in charge of the original registers.

It should be borne in mind that previous to 1752 the years were calculated as beginning on the 25th of March, so that a marriage entered as having taken place on, say, the 20th of February 1624, really occurred on that day in 1625 according

to our reckoning. This is sometimes expressed by "162 $\frac{1}{2}$ " or 1624-5.

No index is issued with the volume, as the Editors believe that it is better to print as many registers as possible, and to defer index-making until the registers still in manuscript are placed beyond the risk of loss.

The present volume contains all the remaining parishes in Rushcliffe Wapentake except Bunny, Plumtree, and Stanton-on-the-Wold. These parishes, together with Langar, which belongs to Bingham Wapentake, will appear in a subsequent volume.

The next volume is already partly printed, and will contain a further portion of the parishes in Broxtowe Wapentake.

Nottinghamshire Parish Registers.

Marriages at Willoughby-on-the-Wolds,

1682 to 1812.

NOTE.—The Registers to 1812 are contained in three books. The first measuring eleven inches by seven inches, commencing 1680, is of parchment. Owing apparently to the effects of damp, a great portion of the entries are obliterated or illegible. The second volume, containing Baptisms and Burials from 1758, is also in parchment, and measures twelve inches by seven inches. The third is bound in leather, ten inches by eight inches, and contains the Marriages from 1754.

These extracts have been made by Major G. C. Robertson, of Widmerpool, and are now printed by leave of the Rev. W. H. Richardson, Vicar of Wysall and Willoughby, after being collated, with the original Register.

Marriages at Barton-in-Fabis,

1558 to 1812.

NOTE:—The ancient Parish Registers of Barton are four in number. Mr. J. T. Godfrey, in his *Churches of Nottinghamshire*, gives the following details respecting them:—

Volume I is of parchment, 16in. by 5½in., and contains twenty-five leaves in the original parchment covers further enclosed in a modern binding. It contains Baptisms from 15 October 1559 to 28 December 1671; Marriages from 11 May 1559 to 21 December 1671, and Burials from 15 April 1559 to 27 February 1671. The entries appear to be continuous in date but not in arrangement. The book is in good condition.

Volume II is of paper, 15in. by 6in., and has been rebound. It gives the baptisms 20 March 1671 to 26 December 1810; Marriages from 21 December 1671 to 27 August 1752, and Burials from 7 September 1682 to 11 August 1811.

Volume III is a large book of parchment, copied principally from Volume II. The Baptisms extend from 20 March 1671 to 5 July 1812; Marriages from 21 December 1671 to 23 August 1752, and Burials from 7 September 1682 to 20 December 1812.

Volume IV contains Marriages only, from 8 March 1756 to 28 May 1812.

These Marriages have been abstracted by the Rev. C. A. Hodgson, rector of Barton, and are now printed under his supervision.

Marriages at Ratcliffe-on-Soar,

1624 to 1812.

NOTE.—The earliest Registers at Ratcliffe-upon-Soar consist of four volumes, of which the first is unusual, as being of paper instead of parchment. It is in poor condition, and contains entries of Baptisms from 1597 to 1718, Marriages 1624 to 1718, and Burials 1624 to 1718. The first Baptism is that of Ellenor, dau. of Henry Sacheverell, Esq., 29 March 1597, and the first Burial that of Henry Sacheverell, Esq., 20 January 1624-5.

Vol. II is of folio size, bound in parchment boards, and consisting of five leaves of parchment and four of paper, containing Baptisms 1719 to 1772, Marriages 1720 to 1773, and Burials 1719 to 1770.

Vol. III, a small quarto paper book bound in parchment boards, contains Baptisms and Burials 1770 to 1810, and Marriages 1774 to 1810.

Vol. IV, a folio book of parchment leaves, bound in rough calf, is a "fair copy" of the entries in Vol. III, with the addition of the years 1811-12.

These Marriages have been transcribed in part by the late Rev. E. S. Taylor, rector of St. Anne's, Sutton Bonington, and in part by the Rev. T. A. Wodehouse, of Gotham, and are now printed after collation with the originals by Mr. T. M. Blagg.

Marriages at West Bridgford,

1559 to 1812.

NOTE.—The Registers of West Bridgford are thus described by Mr. J. T. Godfrey in his *Notes on the Churches of Nottinghamshire*:—

"The first Register is of parchment, 12 in. high and 6½ in. wide, stitched in parchment covers. It contains Baptisms from November 1559 (except the years 1644, 5, 6) to 29th September 1653; Marriages from 23rd October 1559 to 29th September 1653; and Burials from 2nd October 1559 to 4th September 1653. The book is well written in English, and is in good order.

"The second book is also of parchment, and the leaves, 27 in number (including portions of leaves), are loosely stitched in a parchment cover. At the commencement is the appointment of the Parish Register: 'Feb. 12th, 1653, We doe hereby Certifie yt Francis Smith of West Bridgford in the County of Nottingham' is nominated and chose' by the Major pt' of the Parishioners there to be their parish Register.—Sa. Cotes, Rector there [and six others].' 'Francis Smith of West Bridgford approved and sworne Register for ye said Parish Apr. 12, 1653, by me, Hen. Sacheverell.' The entries are very confused, and comprise Births, Marriages, and Burials from about 1654 to 1670.

"The third Register contains twenty parchment leaves in a parchment cover. It comprises Births, Marriages, and Burials from 1689 to 1724. The leaves vary in size, and some of them are eaten by mice. The marriages for 1689 and 1690 are written outside of the first cover, and the Burials and Marriages for 1724 are inside the back cover.

"The fourth book contains twenty-two parchment leaves, 10½ in. by 6½ in., eleven paper leaves, and a small parchment leaf stitched inside the front cover, which is part of an old parchment deed. The book contains Baptisms, Marriages, and Burials from 1725 to 1767-8.

"A parchment book contains Baptisms and Burials from 1768 to 1812, and at the other end are some Marriages from 1768 to 1779.

"Another book contains Marriages from 28th January 1772 to 5th November 1812."

The entries for the year 1665 are in a little later hand, with a note at the top of the page to the effect that they were "copied out of a loose paper y^e lay in the Book, by me J. F."

These Marriages have been transcribed by Mr. F. A. Wadsworth, of Nottingham, and are now printed, under his supervision, by permission of the Rev. Richard Hargreaves, rector of the parish.

Marriages at Ruddington,

1653 to 1813.

NOTE.—The earlier parish Registers of Ruddington are contained in three volumes, as follows:—

Volume I consists of 48 leaves of parchment and one fly-leaf in a tattered parchment cover, and measures 18 by 7 inches. It contains entries of Baptisms, Marriages and Burials, kept separate and entered in distinct parts of the volume. Its title states that it begins on 28 December 1633, but the first leaf of entries (Baptisms) has been cut out, and the volume now begins with the fourth baptism in the year 1636. Marriages and Burials do not begin until 1653, and the volume contains all three classes of entries down to 1753.

Volume II is a folio book of paper, bound in parchment boards. It contains entries of Marriages, 1754-1807; Baptisms, 1750 to 1806; and Burials, 1753 to 1806; the first four years of the Baptisms and the first year of the Burials, being fair-copied out of Volume I.

Volume III is a strong folio of parchment leaves bound in rough calf. It contains entries of Marriages from 1754 to 1813, Baptisms 1750-1812, and Burials 1753-1812. The greater part of it is thus only a fair-copy of Volume II. So far as the Marriages in these two volumes overlap (1754-1807) they have been collated for the purpose of this publication.

The church of this parish stood at Flawford, a lonely spot in the open field at a great distance from the village. As early as 1479 this had been found so inconvenient that a licence was granted for a font to be erected in the chapel at Ruddington, and for sacraments to be administered in that chapel. It is probable, therefore, that from that date most baptisms and marriages were performed at Ruddington, and in the period for which the registers are extant only one marriage is recorded as having taken place in the parish church at Flawford, that of John Webster and Katherine Franklin in 1663-4; all the rest apparently took place at Ruddington. The Marriages from 1753 to 1773 are entered as having been solemnized "in this chapel", while in 1774, and thereafter, the style is "in this church", a faculty having been obtained in 1773 for the destruction of the church at Flawford, so that the chapel at Ruddington thenceforward became the parish church. In the Archdeaconry Records of Nottingham are several presentments from Ruddington during the first quarter of the eighteenth century for the church at Flawford being in decay.

Copies of the inscriptions on the twelve remaining headstones in the ancient and deserted graveyard at Flawford, as they existed in 1871, are given by Mr. W. P. W. Phillimore in *Notts and Derbyshire Notes and Queries*, volume ii, p. 134-5.

These Marriages have been copied by Mr. T. M. Blagg, F.S.A., and are now printed under his supervision by permission of the Rev. F. Boykett, M.A., vicar.

[NOTE.—Henry, 4th Lord Santry, whose marriage is recorded in 1750, had forfeited his title in 1739, upon being convicted of the murder of a footman, so the barony was now extinct and the bridegroom was entitled only to his surname, Barry.—T. M. B.]

Marriages at Clifton,

1573 to 1812.

NOTE.—The registers of Clifton are thus described by Mr. J. T. Godfrey in his *Notes on the Churches of Nottinghamshire* :—

"The oldest register at Clifton is a parchment book containing 46 leaves, 11 ins. high and 8 ins. wide. The entries are in double columns, well written, and (excepting that there are no Marriages from 1647 to 1657) continuous, but not classified. As there is no heading to the entries, which have recently been numbered consecutively, it may be inferred that one or two of the front leaves have been lost. The first entry (a Baptism) is dated 10th May 1573; the last entry (No. 1179), a Burial, is dated 13th December 1654. This register has been interleaved with paper and bound in strong parchment covers, with clasps, and forms an admirable and interesting volume.

"The second register, also of parchment, contains 28 leaves, 17 ins. high and 5½ ins. wide. The entries are numbered in continuation of the preceding register. The first (No. 1180) is dated 8th June 1655; the last entry (No. 1894) is as follows:—'Mr. Gervas Thirlby died in Flanders ye 19 day of May 1695. he was a solger for ye king.'

"The third register is a parchment book of 25 leaves, 13 inches high and 6½ inches wide. It contains Baptisms, Marriages, and Burials from March 1695 to March 1734.

"The fourth register, a large parchment book, contains Baptisms and Burials from 1734 to November 1812, and Marriages from 1734-1754.

"A parchment book contains Marriages from 1754 to 1789, and another book of paper contains Marriages from 1789 to 1812."

At the time of the commencement of the second volume "Jonathan Boote of Clifton" was the "Register." In the same volume there is an entry of a collection under a Brief, as follows:—
"Collected Feb. 24, 1660, for a Briefe (in our Parish Church of Clifton) for the rebuilding of Pontefract Church, in the county of York, the just sum of fourteen shillings and ten-pence."

The third volume is headed as follows:—"The yeare of our Lord God 1699. Thomas Lambert and George Attenborah, churchwardens, when this book was bought, price 5s."

These Marriages have been copied by Mr. F. A. Wadsworth, of Nottingham, and are now printed under his supervision, by permission of the Rev. Rosslyn Bruce, Rector of the parish.

Marriages at Wilford,

1657 to 1812.

NOTE.—Mr. Godfrey, in his *Nottinghamshire Churches*, gives the following account of these Registers:—

"Of the earliest Registers at Wilford only a fragment remains. This is a leaf and part of another leaf (in one skin) out of a book 15in. high and 6in. wide, and contains entries of Burials from 8 Nov. 1621 to 4 March 1636.

"The earliest existing book contains thirteen leaves of parchment and four paper leaves, all 11½in. high and 8in. wide, stitched in a parchment cover. The first two parchment leaves and the four paper leaves form the fly leaves of the book. These contain, *inter alia*:—On page 1, four entries of 'punishments,' the first being 'Margery Beerham, wife of Jo. Beerham, was punished according to law at Wilford, and sent with a pass to Bondsall, in Derbyshire'; page 2 is blank; page 3 contains entries of three collections of briefs in 1660, and a memorandum that Leonard Curtoys read himself in as rector 20 October 1661; page 4 contains the appointment, dated 25 January 1657, and signed 'Tho. Charlton,' of William Shepard, tailor, as 'parish register.' Two of the paper leaves contain collections on briefs about 1681, the other two paper leaves being blank.

"The Register proper thus commences with Marriages from 24 Jan. 1657 to 1699, followed by Baptisms from 4 April 1658 to 14 May 1695, and Burials from 30 Jan. 1657 to 21 March 1675. All these entries are continuous, and fairly written in English. The remaining leaves, some 13 in number, some of which have contained entries, have been cut out. A loose leaf contains entries of Baptisms from 14 October 1705 to 8 March 1708.

"The Second Register consists of 51 leaves of parchment, 15½in. high and 7½in. wide, bound in leather covers. It contains Baptisms from 22 January 1694 to 20 December 1787; Marriages from 5 April 1695 to 6 January 1754, and Burials from 27 November 1694 to 26 November 1787. All the entries are continuous and well written. At the commencement of the book is a terrier of the glebe land, dated 18 November 1684, and at the other end is a terrier dated 20 November 1743.

"The Third Book is also of parchment, 16in. high and 8in. wide, bound in leather covers. Only 12 leaves are written on, and these contain Baptisms from 3 March 1788 to 23 December 1812, and Burials from 19 February 1788 to 24 November 1812.

"A large paper book, 14½in. by 8½in., in parchment covers, contains Marriages from 20 June 1754 to 15 March 1810. A small book of

printed forms contains 11 Marriages between 17 April 1810 and 22 July 1812.

"The subsequent Registers are in conformity with the Acts of 1812 and 1836."

These Marriages have been kindly copied for this work by the Rev. J. Clough, Rector of the parish.

Marriages at Edwalton,

[1538 ?] to 1812.

NOTE.—Mr. J. T. Godfrey's *Nottinghamshire Churches* contains the following admirable account of these Registers:—

"The earliest Register is a parchment book of twenty-six leaves (including a front blank fly-leaf), 13½in. high and 5in. wide, contained in parchment covers. The book is in a most wretched state, the result of former neglect; about one-half of the front leaves have been eaten away by mice, the remaining leaves being more or less damaged by mice and damp. No leaf is perfect and the covers are so much wrinkled as to suggest that the book must have been allowed to lie in a damp place for many years. We have never seen a register in such a deplorable condition. The Baptisms commence on the first page, the earliest legible date being at the bottom of the second page, and continue down to August 1715, at the bottom of page 23. Page 24 contains a few Marriages about the year 1716. The regular entries of Marriages begin on page 25 (the earliest legible date being 1600), and continues to the year 1719, at the bottom of page 29. Then more Baptisms follow, ending with the date 26 January 1717, at the top of page 31, the lower half of the leaf being cut out. Page 32 is blank. Then Burials follow, the first legible date, 1562, being at the top of page 34, and the entries continue to the year 1649, at the bottom of page 37. The next page is blank. The Burials are then resumed from April 1648 to September 1684 (but none between 1648 and 1653), at the end of the forty-second page. Page 43 contains five almost illegible entries. Page 44 contains 10 Burials from 1684 to 1695. On the following page the Burials are continued from 1696 to 1714, at the bottom of page 47. Page 48 contains some illegible entries, and pages 49 and 50 are scribbled on. It will be noticed that some of the dates overlap, as though the entries of a particular year were made in two places in the book. This, however, from the condition of the book, cannot be determined very accurately. All the entries are in English.

"The second Register, also of parchment, contains twenty leaves, 11½in. high and 5½in. wide, bound in parchment covers. The book is in fair condition, and written in English. The Baptisms commence on the first page with the date 15 April 1719, and continue to 27 November 1743 at the bottom of the eighth page. The Marriages follow from 24 November 1719 to 27 July 1749,

end of page 10. Page 11 contains two Baptisms, 3 December 1759 and 10 October 1765. Page 12 contains Baptisms from 1744 to 1746, with an odd one dated 3 July 1729. On the next page Baptisms are resumed from 23 March 1745 to 1765, at the bottom of page 16. The Burials commence on page 17 with the date 20 April 1719, and continue to 30 November 1790, near the end of page 28, where there is a note that Burials for 1791 must be looked for amongst the Baptisms. At the bottom of page 28 there is a Baptism, 21 December 1766, omitted in its proper place. Baptisms follow from 21 December 1766 to 13 April 1800, at the end of page 39; the last page is blank. The Burials for the years 1791 to 1799 are entered among the Baptisms for those years.

"A paper book contains Marriages from 1 February 1756 to 11 November 1811; another paper book contains Baptisms from 17 June 1800 to 20 December 1812; and Burials from 7 January 1800 to 6 May 1812.

"The modern Register contains Baptisms from 21 February 1813, Marriages from 14 January 1814, and Burials from 16 January 1814."

These extracts, up to 1719, have been extracted by Mr. W. P. W. Phillimore, and the rest by the Rev. A. H. Millard, Curate of Edwalton.

Marriages at Keyworth,

1657 to 1812.

NOTE.—The Registers before 1812 are contained in five volumes. Mr. Godfrey's account of them in his *Nottinghamshire Churches*, is as follows:—

"The oldest register of Keyworth is a parchment book of thirteen leaves with parchment covers, the front cover being cut. The leaves are 13 inches high and $6\frac{1}{2}$ inches wide. All the entries are in English. The Baptisms commence on the first page with the date 23 January 1653 and continue to 28 February 1667, at the bottom of page 4. The Burials follow from 13 October 1654 and continue to 1689 at the bottom of the tenth page. Page 11 commences the Marriages with 18 May 1656, and continue to 31 March 1706, at the bottom of the next page. The Burials are then resumed from 18 January 1689 to 30 April 1706, at the foot of page 14. Then follow Baptisms from 26 March 1668 to 1707, at the bottom of page 20. At the top of page 21 is written, '1707, Mr. William Goodall, late Rector of this parish, was bury'd on the 28th day of February, by Edwd. Moises, Vicr. of Wymes-wold.' On the following page are a few entries (eleven in number) of Baptisms and Burials in the years 1707 and 1708. Pages 23, 24, and 25 contain accounts of collections on briefs from 1661 to 1695. The last page has the official appointment (partly illegible), in April 1654, of John Chamberlayne, of Keyworth, as 'Parish Register,' signed by 'Hen. Sacheverell' and 'Cha. White'. The book is in fair condition, but the first page is somewhat illegible through handling. No Marriages are entered from 12 February 1658 to 2 November 1662, 22 January 1662 to 27 July 1665, 1667, 1670, 1671, 22 April 1672 to 24 June 1682, and from this last date to 12 May 1685. There are nine entries of burials in woollen in the years 1678, 1679 and 1680.

"The second Register is also of parchment, and contains twenty leaves, 11 inches high and $7\frac{1}{2}$ inches wide, with parchment covers. The Baptisms extend from 29 September 1709 to 20 February 1714, and from 16 July 1716 to 11 June 1780. There are no Baptisms for the years 1715, 1722 and 1741. The Marriages are from 25 June 1709 to 2 May 1713, and from 1 July 1716 to 21 March 1754. There are also a few odd Marriages in the following years, viz.: One in 1762, two in 1764, one each in 1765, 1766 and 1767, and two each in 1768 and 1769. There are no Marriages in the years 1710, 1714, 1715, 1721, 1722, 1729, 1749 and 1753.

The Burials are from 24 November 1709 to 10 April 1715, and from 29 January 1716 to 2 September 1780. But there are no Burials to be found for the years 1722 and 1757. On the last four pages are accounts of collections on briefs in the years 1709 and 1710, and from 1728 to 1742. This Register is in fair preservation.

"The third book, also of parchment, contains Baptisms from 28 January 1781 to 11 October 1812, and Burials from 18 January 1781 to 16 November 1812.

"The fourth book, of paper, contains Marriages from 23 April 1754 to 1 April 1801.

"The fifth book contains Marriages from 1801 to 1813."

The following extracts have been made by the Rev. H. P. Ling, Rector of Keyworth, and the proof has been collated by him with the Register.

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 1996).

There is a growing awareness of the need to improve the nutritional status of the world's population. The United Nations World Food Programme (WFP) has been instrumental in the development of the *World Food Summit Declaration* (WFP 1996) and the *World Food Summit Plan of Action* (WFP 1996).

The *World Food Summit Declaration* states that 'the world's population is growing rapidly and the demand for food is increasing. It is essential that we ensure that everyone has access to sufficient food and that the food is of good quality and nutritious'.

The *World Food Summit Plan of Action* states that 'the world's population is growing rapidly and the demand for food is increasing. It is essential that we ensure that everyone has access to sufficient food and that the food is of good quality and nutritious'.

The *World Food Summit Declaration* and the *World Food Summit Plan of Action* are the first international agreements to address the issue of food security and nutrition. They provide a framework for action and a basis for monitoring progress.
